

What's your vision?

In 2015, the Commonwealth Transportation Board adopted a Vision, Guiding Principles, and Goals to guide VTrans2040. In our fast-moving world, a lot has happened since 2015. For this VTrans update, should we revisit the Vision? Is it time to rethink any of the Guiding Principles or Goals? Tell us what you think by jotting down your thoughts on this sheet.

What's a vision statement?

A vision statement describes the optimal future that all of us, working together, want to bring about. An inspiring picture of what we want to accomplish over time, the vision statement motivates and guides everyone involved in achieving it. It provides a focal point that helps each partner agency and stakeholder to align its own plans and actions with the desired future outcomes, and to stay true to the course during the long journey toward success.

Why might we want to change the vision?

It's important to step back every so often and assess the meaning and relevance of a previously adopted vision statement, given the values, needs, and desires of today's Virginians. Regardless of whether we make any changes to the words, we need to make sure the vision—and the goals that support it—represents our very best aspiration for the world in which future generations of Virginians will live.
