

Updating Mid-Term Transportation Needs

Needs Identification Approach

1. Validate and build upon needs identified in VTrans2040 (previous plan) organized by travel markets: 1) Corridors of Statewide Significance (CoSS) 2) Regional Networks 3) Urban Development Areas 4) Entire state for safety needs.
2. Propose to measure what matters to assess needs with better data and stakeholder input.
3. Tie needs measures to updated VTrans2040 Vision and Goals.
4. Coordinate and engage with stakeholders to validate and finalize needs. The project team will present the needs methodology, complete the initial analysis, and validate the results, with a presentation of the results to the CTB anticipated for December 2019.
